## EMPLOYMENT HISTORY

---

### Computer Operator and Office Secretary

*IBBU Consult and Services Ltd., Lapai*

*January 2024 – Present*

- Operate and maintain computer systems to support administrative processes.

- Assist with office management and provide administrative support under the supervision of the Admin Office.
- Collaborate with other units to execute tasks effectively.
- Ensure smooth operation of consultancy services with a focus on achieving organizational goals.

## EXTRA-CURRICULAR LEADERSHIP

---

**Founder – 5IRE Movement** (*5th Industrial Revolution Emperor*)  
*IBB University Lapai | 2019 – Present*

- ***Founded*** and ***led the 5IRE Movement***, a student-driven initiative aligned with the values of the *5th Industrial Revolution*, focusing on purpose-driven technology, sustainable innovation, and digital empowerment
- Organized mentorship sessions, workshops, and academic support programs promoting leadership, technical excellence, and collaboration.
- Built a growing community of active student contributors dedicated to driving impact through technology, education, and personal development.

## KEY ACHIEVEMENTS

---

- Successfully supported IT operations at IBBU Consult, contributing to system efficiency and workflow improvement.
- Designed and developed functional web tools, including a calculator app, a to-do list application, and multiple web pages using HTML, CSS, and JavaScript.
- Created the official webpage for the ***5IRE*** (5th Industrial Revolution Emperor) to showcase its vision, impact, and initiatives, promoting student innovation and leadership
- Developed a landing page for ***NDATTI Bespoke Apparel***, a Northern Nigerian clothing brand, highlighting its identity, product offerings, and unique style.
- Gained hands-on experience with API integrations, testing RESTful endpoints using Postman with GET, POST, PUT, and DELETE methods.
- Founded and led the 5IRE Movement at IBB University, empowering 100+ students through digital skill-building, mentorship, and collaborative learning events.
- Spearheaded the creation of a contributor database and student recognition system to enhance visibility, organization, and active participation within the movement.

## PROJECTS

---

### Calculator Web App

- Developed a fully functional calculator using HTML, CSS, and JavaScript.
- Implemented standard arithmetic operations with a clean, responsive user interface.

### To-Do List Web App

- Created a task management application using HTML, CSS, and JavaScript.
- Integrated local storage to ensure task persistence and enhanced user interaction.

### SIRE Movement Web Page

- Designed and developed a branded webpage for the SIRE Movement initiative.
- Showcased the vision, mission, and team database, focusing on digital empowerment and community collaboration.

### NDATTI Bespoke Apparel Web Page

- Built a modern landing page for NDATTI Bespoke Apparel, a northern Nigerian fashion brand.
- Highlighted product offerings and brand identity using responsive design and user-focused layout.
